

# Costa Rica

By sawyer

# People

About 4,763,000 people live in Costa Rica.

The life expectancy of males is about 77 years. The life expectancy of females is about 82 years. They speak Spanish and

English. people there are called Costa Ricans, just like we are called Americans.

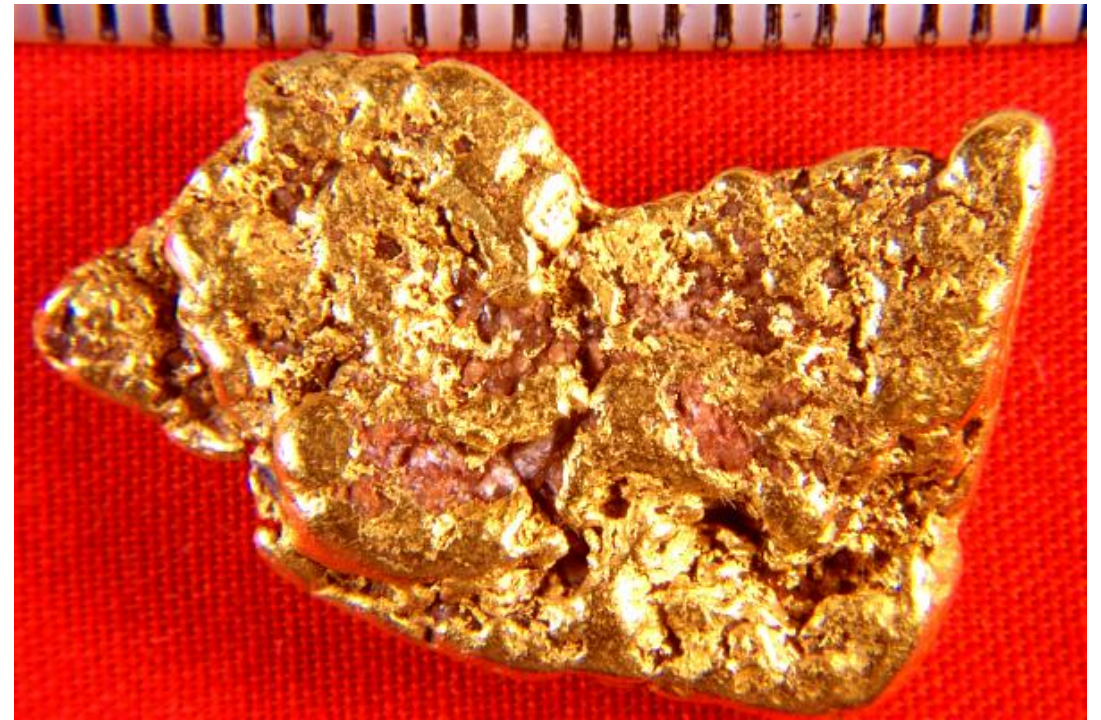

# Land

Costa Rica is hot and wet.its continent is North America,just like us.the capital of Costa Rica is San Jose.the highest place in Costa Rica is the mountain chirrupo grande.the lowest elevation is sea level.

# History

The Spanish named it Costa Rica because it meant "rich coast".they believed it carried gold and other precious items.Costa Rica has many valuable items that are worth a lot of money. And if you ever go on a trip,you should go to Costa Rica.
