

Lynx

By Amelia

Lynx are wild cats that weigh 20 to 45 pounds

Lynx hunt at night. They hunt hares, squirrels and birds.

Sometimes big lynx eat deer. Lynx live in Europe, North America and Asia. Lynx live alone. A female Lynx will give birth to 1 to 4 kittens in 1 litter. Kittens leave their moms after 10 months. Lynx live 10 to 15 years in the wild. Lynx can walk on top of snow without sinking!
Lynx are shy.
