

# Mexico

By Vivian

## Land

In the north the land is really dry.

In southeastern Mexico is the Yucatan Peninsula.

Inland there are mountains.

In the west there are rivers and farmland.

## People

Most of Mexico's people are a mix of American, Indian and European background.

# History

The Indians of Mexico built large beautiful cities.

Some Indian groups built huge pyramids  
and stone temples.

# Resources and products

Farmers grow a lot of crops in Mexico. Important crops are chili peppers, corn, mangoes, oranges, cane, and wheat.
